

## **STUDENT’S DECLARATION**

We hereby declare that the work being presented in this report entitled “College Marketplace” is an authentic record of our own work carried out under the supervision of Ms. Shruti Aggarwal

The matter embodied in this report has not been submitted by us for the award of any other degree.

**Dated: 17 /12/ 2025**

**Signature of students(s)**

Rajat Sharma

Rajshree

**Department:** Computer Science & Engineering

This is to certify that the above statement made by the candidates is correct to the best of my knowledge.

**Signature of HOD**

**Prof. (Dr.) Pankaj Kumar Sharma**

**Computer Science & Engineering Department**

**Date: 17/12/2025**

**Signature of Mentor**

**Shruti Aggarwal**

**Assistant Professor**

**Computer Science & Engineering  
Department**

# **CERTIFICATE**

This is to certify that project report entitled “College Marketplace” which is submitted by Rajat Sharma, Rajshree in partial fulfillment of the requirement for the award of degree B. Tech 3<sup>rd</sup> Semester in Department of Computer Science & Engineering of Dr. A.P.J. Abdul Kalam Technical University, formerly Uttar Pradesh Technical University is a record of the candidate own work carried out by him/them under my supervision. The matter embodied in this thesis is original and has not been submitted for the award of any other degree.

**Signature of Mentor**

**Name:- Ms. Shruti Aggarwal**

**Designation: Assistant Professor**

**Computer Science & Engineering Department**

## ACKNOWLEDGEMENT

*It gives us a great sense of pleasure to present the report of the B. Tech Project undertaken during B. Tech. Final Year. We owe special debt of gratitude to Ms. Shruti Aggarwal, Department of Computer Science & Engineering Department, ABESEC Ghaziabad for his/her constant support and guidance throughout the course of our work. His/her sincerity, thoroughness and perseverance have been a constant source of inspiration for us. It is only his cognizant efforts that our endeavors have seen light of the day.*

*We also take the opportunity to acknowledge the contribution of **Prof. (Dr.) Pankaj Kumar Sharma**, Head, Department of Computer Science & Engineering, ABESEC Ghaziabad for his full support and assistance during the development of the project.*

*We also do not like to miss the opportunity to acknowledge the contribution of all faculty members of the department for their kind assistance and cooperation during the development of our project. Last but not the least, we acknowledge our friends for their contribution in the completion of the project.*

## ABSTRACT

*With the increasing dependency of college students on informal platforms such as social media groups for buying, selling, and recovering items, there is a growing need for a structured and reliable campus-based solution. This project, titled “Quest Traders – A Gamified College Marketplace and Lost & Found System,” is developed to provide a centralized web-based platform that enables students to trade items and report lost or found belongings efficiently within a college environment. The problem addressed in this project is the lack of organization, trust, and engagement in existing informal systems, which often results in missed information and poor recovery of lost items. To overcome these issues, the system is designed using web technologies such as HTML, CSS, and JavaScript, with a modular approach including marketplace, lost and found, user profile, achievements, and leaderboard modules. Gamification elements like levels, coins, and achievements are incorporated to increase user participation and interaction. Local storage is used for data management during demonstration and testing. The results of the project show that users are able to post items, view details, confirm trades, and manage lost and found records successfully through an interactive and user-friendly interface. The system effectively meets its objectives by providing an organized, engaging, and practical solution for campus trading and item recovery. Hence, the proposed system proves to be suitable for addressing daily student needs within a college campus.*
